

# Immigration

United States Citizenship and Immigration Services (USCIS) oversee the lawful entry of immigrants into the United States. USCIS adjudicates immigrant petitions, naturalization petitions, as well as asylee and refugee applications.

USCIS provides several forms online for your convenience. Please visit the USCIS website and click on the Immigration Forms section.

If you are interested in obtaining the status of your application or petition, you may do so by visiting the Case Status Service website.

If you require information regarding the immigration process, you may contact the USCIS National Customer Service Center by telephone at 1-800-375-5283. Although they may be able to answer many of your questions, please be aware that they are unable to provide a status on your case over the phone.

If you need additional assistance with your immigration case, please call Joanne at 860-223-8412.
