WASHINGTON, D.C. - Today, Congressman Chris Murphy (CT-5) announced that Torrington has received over \$440,000 from President Obama's American Recovery and Reinvestment Act for Housing and Urban Development Programs.

"My top priority has been getting people in Torrington what they need in these tough economic times. These funds will make a difference in the city, and my hope is that today will mark the beginning of Connecticut's long road to recovery," said Murphy.

Torrington will receive \$442,447 million for Capital Funds to be spent on modernization and development of public housing.
